

A TRIP INTO SPACE - CHOOSE YOUR GEAR

You are going to a new, unexplored, uncharted planet that scientists believe is almost identical in its environment to our Moon. You expect to be there at least 3 weeks. You expect to spend much of your time outside the landing craft on the planet surface. You also expect that you will return to Earth either by the existing landing craft or via another vehicle that will pick you up and return you to the waiting main spacecraft in orbit.

You will be allowed to take 10 items with you to the surface of the planet. You must choose those items from the list below. There are more than 10 “correct” answers. However, there are some items that are more important than others. Be ready to defend your reasoning for each choice you make. Good Luck!

Skill Level 1: Put a check mark next to each of the 10 items you select.

Skill Level 2: Rank the checked items from 1 to 10 in order of importance.
